Gator Sweeper

The Gator Powered Sweeper has a convenient unique 3-position control. This allows the user to sweep straight, right, or left. Gator's floating power brush design assures positive bristle contact with all surfaces for an efficient cleaning and longer brush life. This brush design is a one-piece drum with slotted mounts for ease when replacing the brush. This unit also comes equipped with a smooth hydrostatic drive axle, and handle mounted, one-hand, control lever. This ensures a steady sweeping action and full control at all times. All moving parts are covered with heavy-duty covers ensuring they are protected from accidental damage. This unit has a Honda electric, gear-reduced, engine and solid tires. This powered sweeper unit is built roofer tough!
